REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: the combination of elements as claimed is deemed to be directed to an unobvious improvement over the invention patented by Frame et al. Frame et al discloses a piston ring having a surface coated with a thermoset resin and PTFE (32, e.g. column 2 line 53-55). This improvement comprises the surface coated with polyaryletherketone, which is a thermoplastic.

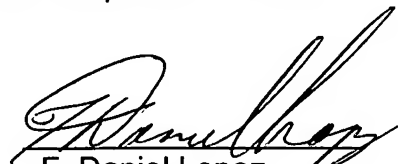

The testing (see fig 5) of Frame et al, using different coatings, show that there is no predictability of which coating will perform well to prevent micro welding. Therefore, a teaching of equivalence in using polyaryletherketone and PTFE would not necessarily carry over to this particular environment.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, preferably **accompanies** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dan Lopez whose telephone number is (703) 308-0008. The examiner can normally be reached on Monday-Thursday from 6:15 AM -3:45 PM. The examiner can also be reached on alternate Fridays.
